## REGISTRATION OF INTEREST FOR LOAN

The New Zealand Federation of Historical Societies Inc wishes to assist member societies, where applicable, with costs of historical writing projects.

The Federation is fully aware of the tremendous effort that many societies are making in the way of publications, and this proposal is intended to encourage societies to preserve their local area histories in written (and pictorial) form.

The assistance will be in the form of an advance (loan) to achieve the final hurdle of reaching publication costs.

The Federation will accept applications from member societies to assist with publication costs of a book or pamphlet relating to a local area or topic.

CRITERIA:

*Maximum individual advance will be limited to \$2,000 including GST*

*Advance to be for quoted publication costs or part thereof only*

*Advance to be for historical material only – not advertising material*

*Supporting quotations and other information to be supplied*

*Information of other assistance on the project may be required to show the viability of the project*

*Repayment of the advance to be made quarterly within a period of 18 months*

*A modest interest rate may be charged*

*The advance will be paid direct to the supplier with the recipient society going guarantor with a statement to the Federation*

The Federation invites any society which feels that its project meets these criteria, to lodge an EXPRESSION OF INTEREST.

Please apply in the first instance, with a resume of the project to
